

Make your own lucky charm

Materials

- Red or white air-drying clay
- Wooden stick
- Markers
- Colored laces

Instructions

- Cut two small pieces of clay and mold them into thin, short spaghetti-like shapes.
- Join the two pieces together to create a cross.
- Engrave or paint them if you want to add details.
- Make a hole with the stick or the tip of a pencil on one end.

When your lucky charm is dry, thread a lace through the hole and your creation is complete!
