

# Figurines with a twist

## Materials

- Paper and thin cardboard sheets
- Colored paper
- Scissors
- Glue
- Wooden stick (popsicle sticks or spatulas)
- Buttons, pieces of fabric and small leaves

## Instructions

Print the pages with the outlines of the Cycladic figurines and color them, transform them into flowers, musical instruments, butterflies, women with big hats and anything else you put your mind to.

- Cut out the outline and glue a stick (such as a popsicle stick or whatever you have available at home) behind the figures and create the characters of your own show.
- Cut out the outline and glue them on cardboard. Use colored papers, pieces of fabric, even leaves or buttons and make your own collage. You can even make stencils. Cut out the outlined figures and glue them to a piece of cardboard. With the assistance of an adult, carefully use a cutter to cut along the outline of the figurine, creating a gap. Your stencils are now ready to use!
